Event/Workshop/FDP/Program/Activity Name: Awareness & School Networking of AICTE IDEA Lab Concept towards Necessary Collaborations

Date: 3rd August, 2022

Convener or Coordinator Name: Dr. Biswarup Neogi

About the Program:

The awareness and school networking program for AICTE IDEA Lab Concept proved highly successful in fostering necessary collaborations and creating awareness about various machines, including Laser Cutting machine, CNC wood router, 3D Printer, and more. The initiative aimed to introduce students to the JISCE IDEA LAB, inspiring interest in cutting-edge technology and innovation. Through informative presentations, students learned about the potential applications of different machines and their significance in modern industries. The event also facilitated networking opportunities, allowing schools to establish direct connections with JISCE IDEA LAB representatives. As a result, students expressed heightened enthusiasm to explore the lab's advanced machinery and engage in hands-on projects, indicating a positive impact on their future career aspirations.
